20/00207/FUL – Manor Farm Barn, SN15 5BT

It was resolved that the Parish Council **objects** to the application based on an inability to judge the viability of the proposed cider making business since no details are provided of the scale and working methods intended. For example (a) the source of apples; is this to be from the property itself? – the PC assumes that cider orchard trees already exist otherwise the lead-in time for harvesting new trees could be 5-10 years into the future during which period the proposed development would be dormant; or (b) from produce brought in from outside, and if so, what will be the implications for the volume of traffic movements into and out of the site? (c) what scale of production is envisaged and thus what might be the implications for the disposal of liquid and solid waste.

Meeting closed at 7.50pm
